Computer Society Digital Library

Committed to the Leading Edge

www.computer.org/csdl

At the IEEE Computer Society, we're deeply committed to making this unique resource available to as many institutions as possible. That's why we've created a wide variety of subscription packages—with special pricing options such as tier, consortium, and multi-site pricing.

Contact us for specific ways we can serve your institution. You'll discover that the Computer Society Digital Library really is for everyone.

Contact Gillian Howcroft at g.howcroft@computer.org or +1 714-323-2935 to discuss your institution's needs.

No Other Computing Resource Comes Close

The IEEE Computer Society Digital Library (CSDL) is the best research tool for all of today's hottest computing topics—including artificial intelligence, cybersecurity, big data, the Internet of Things, cloud computing, and predictive analytics—and features

an unparalleled archive of invaluable research. With more than 900,000 top-quality articles and papers that are constantly being updated, the CSDL is the premier collection of computing periodicals and conference publications.

Access to the Computer Society Digital Library has proven to be an invaluable resource to my research and my professional practice.

Grady Booch

IBM Fellow,
Chief Scientist for Software
Engineering, IBM Research

The CSDL includes

- More than 900,000 peer-reviewed articles and resources
- Research from the top technology experts in the world
- Daily updates that allow for immediate access to new content

Sourced from top technology publications—12 leading technical magazines such as

- *Computer*
- *IEEE Software*
- *IT Professional*
- *IEEE Security & Privacy*
- *IEEE Intelligent Systems*
- Plus 7 more

Top journals in every significant subject including

- *IEEE Transactions on Pattern Analysis and Machine Intelligence*
- *IEEE Transactions on Affective Computing*
- *IEEE Transactions on Services Computing*
- *IEEE Transactions on Emerging Topics in Computing*
- *IEEE Transactions on Dependable and Secure Computing*
- Plus 33 more

Proceedings from more than 9,000 leading technology conferences such as

- IEEE International Conference on Big Data and Smart Computing
- IEEE International Conference on Data Engineering
- IEEE Real-Time and Embedded Technology and Applications Symposium
- IEEE International Symposium on Performance Analysis of Systems and Software
- And thousands more

Convenient, Dynamic Ease of Use

As the content of the CSDL grows and updates, so do the interface and ease-of-use characteristics that make the CSDL a pleasure to employ:

- Responsive interface allows for use on desktop and mobile.
- Free RSS feeds notify your users of newly added content of interest.
- Daily updates, including preprints, allow for immediate access to new articles.
- Multiple options for searching and browsing serve various needs.
- Clickable math in all HTML documents enables users to cut and paste equations and formulas for immediate use.
- Multimedia and supplemental material for select articles provide a deeper understanding of the research.
- A customizable welcome message for your institution is automatically generated.
- Download citations in multiple formats makes creating bibliographic references easier.
- Google Scholar Subscriber Links take you to the authoritative version in CSDL together with Google Scholar CASA for off campus working.
- OpenURL and XML Gateway are enabled to lead your users to the appropriate resource.

Options to Meet the Needs of Every Institution

To meet a wide variety of budgets and requirements, the IEEE Computer Society has developed a range of packages and pricing structures that allow libraries to provide the most-needed information to users. If you do not see a package that meets your specifications in the list below, please call us to discuss other options.

To place an order

1. Check the box of the package you are ordering on this page.
2. Complete the reverse side of this form.
3. Return form with payment or your purchase order.

Note: CSDL packages are available through www.computer.org/digital-library/institutional-subscriptions

IEEE Computer Society Digital Library — \$26,050

The CSDL represents a great value for your institution. A subscription provides online access for 12 months to all archives of 43 periodicals at a 31% discount off individual periodicals. Plus, you get access to more than 9,000 conference publications. Ideal for any academic, government, or corporate institution that needs comprehensive, top-quality computer science and engineering information.

IEEE Computer Society Periodicals Package — \$18,350

The Periodicals Package represents a great value. A subscription provides online access for 12 months to all archives of all 43 periodicals in the CSDL. Ideal for academic, government, or corporate institutions with a limited budget or those that don't need the latest research being published in our conference publications.

IEEE Computer Society Magazines Package — \$9,170

A magazine package provides online access for 12 months to all archives of the 12 magazines in the CSDL. This package, which is ideal for academic institutions with only undergraduate programs, includes:

- *Computer*
- *Computing in Science & Engineering*
- *IEEE Annals of the History of Computing*
- *IEEE Computer Graphics and Applications*
- *IEEE Intelligent Systems*
- *IEEE Internet Computing*
- *IEEE Micro*
- *IEEE MultiMedia*
- *IEEE Pervasive Computing*
- *IEEE Security & Privacy*
- *IEEE Software*
- *IT Professional*

IEEE Computer Society Pick5 — \$5,075

The Pick5 package delivers online access for 12 months to your choice of any 5 of the periodicals in the CSDL. This package is ideal for institutions needing only a slice of CSDL content. There is a limit of one Pick5 subscription per customer.

Your institution may also qualify for special discounts:

- Tier pricing: Institutions may be eligible for special discounts depending on whether they have undergraduate-only, graduate degree, or technical certification programs. Contact your agent to learn more.
- Consortium Pricing: Academic institutions worldwide may be eligible for consortium pricing. Purchasing power parity discounts may also apply for academic institutions in qualifying countries.
- Multiple Site Discounts: Available for all institutions with more than one campus location.
